?????????http://www.alstom.com/foundation/??

What is the Alstom Foundation?

Alstom being an established global player, its employees have long been involved in improving living conditions in the communities neighbouring its sites around the world. The Alstom Foundation is the concrete expression of that involvement. Since 2007, the Alstom Foundation has championed humanitarian initiatives put forward by its employees that address 4 key axes:

- Economic and social development

- Environmental protection
- Access to mobility
- Access to energy and water

It has been decided this year - 2018 - to focus the economic and social development axis on two distinct categories:

The development of skills and employability (especially for disadvantaged youth and women)

Support to disadvantaged children (especially street kids and orphanages)

Under this axis, only projects aligned with one or other of these two categories will be considered.
