

CIIPA SMART MANUFACTURING DELEGATIONS

2024 & 2025

From September 1 to 10 2024, smart manufacturing themed delegation trip visited Taixing (Jiangsu Province), Chongqing, Xiamen and Guangzhou.

In **Taixing, Jiangsu Province**, The group visited several industrial companies, including a lithium-ion battery producer, a mechanical engineering company, and a manufacturer of power transmission components, and was received by the Taixing local government for exchanges with local enterprises on potential future cooperation.

In **Chongqing**, visits included Bosch Hydrogen Power Systems, Chongqing Huashidan Machinery Manufacturing, and the automotive supplier Chongqing Qin'an M&E, as well as the FinDreams battery plant (BYD Group) and the Great Wall Motor.

The smart manufacturing themed delegation visits every year **Xiamen**, to participated the China International Fair for Investment & Trade (CIFIT), one of the world's largest and most influential investment-focused events. The Programme included participation in the "Invest in China" Joint pavilion. Every delegation members got one exhibition booth for free. The Group also visited several local companies, including the bus manufacturer King Long Motor, the autonomous logistics solutions provider Zongmu Technology, and the energy storage manufacturer Poweroad. The program was complemented by exchanges with representatives from Hainan Province and the Jimei District government.

The final part of the journey took place in **Guangzhou**, including an exchange with the Yuexiu District government, and concluded with a visit to Huawei in **Dongguan**.

From September 1 to 12 2025, we have traveled to Suzhou Wujiang, Zhuhai, Xiamen, Lishui and Yantai.

In **Suzhou Wujiang**, the program included company and institute visits to the Global Advanced Manufacturing Institute (GAMI), Maxwell Technologies, Bozhon Precision Industry Technologies, and Optic-Electric, providing insights into advanced manufacturing technologies and industrial applications.

In **Zhuhai**, the delegation participated in the Sino-German Smart Manufacturing Dialogue, jointly organized with the city of Zhuhai. This was complemented by targeted matchmaking sessions with local enterprises. The group also visited several leading companies, including Ymicro Semiconductor, Jieli Technologies, XJ Electric, and Gree, gaining a comprehensive overview of the region's industrial ecosystem.

In **Xiamen**, the delegation attended the China International Fair for Investment and Trade (CIFIT). During the fair, the group visited a number of Chinese and international exhibitors. In addition, the program featured company visits to AVIC-Tech, Power Technology, Mugin UAV, and the ABB Industrial Center, highlighting Xiamen's strengths in high-tech manufacturing and industrial innovation.

The final stage of the program took place in **Lishui** and **Yantai**, where the delegation split into two groups. One group traveled to Lishui, visiting the Lishui Economic and Technological Development Zone as well as representative companies located within the zone. The second group traveled to Yantai, where visits included the Yantai Economic and Technological Development Zone and selected local enterprises, offering further opportunities for industrial exchange and cooperation.
